Site H - Roy Shrewder
Site K - Eric Essylstyn

Hi David and Elizabeth,

The much vaunted air sample data and QA documents are now here:

<http://www.gaiavisions.org/20120629-AirSampling/>

Description of documents:

Air sampling timeline, probably want to start here
[AirSamplingTimeline-20120706.html](#) 06-Jul-2012 12:31 18K
[AirSamplingTimeline-20120706.pdf](#) 06-Jul-2012 11:01 37K

Chain of custody for spiked samples
[111205030COC.pdf](#) 06-Jun-2012 11:24 278K

Sample analysis reports
[120322001_TURN.pdf](#) 29-Jun-2012 18:54 1.0M
[120326015_STOP.pdf](#) 05-Jul-2012 14:58 1.1M
[120330043_TURN.pdf](#) 29-Jun-2012 18:54 603K

QA document and modified TO-4A process description
[QA_combinedV3.1-20120629.pdf](#) 29-Jun-2012 21:04 146K

Spiked sample recovery data using revised TO-4A with MTBE extraction

[QA_report_tables.pdf](#)

If you need more information we will be happy to provide it.

This is mostly baseline and process test data, the only active spray sample we have run to date (see Francis Eatherington) came up empty.

As you will notice in the sample analysis reports, all of the sample analyses to date have been run twice by different analysts, EMP and TGT.

We will be running more active spray samples in the next month or so, we were hoping to get some applicator spray information on two of the sites but the spray applicators are not cooperating to date.

And we plan more active spray site sampling in the fall.

Thank you,

Gary, Jan, Eron, Justin, Dan and Marijana
